In continuation to the references cited above, instructions were already issued with regard to ensure that all the service having lavish illumination used frequently or permanently are served with necessary notice to obtain separate service connection for lavish illumination within period of one month. Otherwise the total consumption will be billed under Temporary supply tariff. It is further informed that lapses if any found in this respect will be viewed seriously since this leads to loss of revenue to TANGEDCO.

2.0) In this connection, the screens for conversion of tariff of services in which the electricity supply is used for Lavish Illumination, from the existing tariff to LM61 under sub-category 608 (Supply for Lavish Illumination – Permanent) has been provided for Assistant Engineers/O&M/Distribution in the LT Billing software.

3.0) Hence, all the Superintending Engineers/EDC are requested to instruct to utilize the link for conversion of service connections of LT consumers who are utilizing the supply for Lavish Illumination to LM61 tariff.

This may be treated as **Most Urgent**.
